NEWS LETTER OF THE SOCIETY OF AMERICAN BACTERIOLOGISTS

Office of the Secretary-Treasurer August 1944 Volume X, Number 4

1944 OFFICERS AND COUNCILORS

President:

Past President:

Rebecca C. Lancefield, Rockefeller Institute, New York, N. Y.

Vice President:

Secretary-Treasurer:

Councilors-at-Large:

Martin Frobisher, Jr., Johns Hopkins University, Baltimore, Md.

W. J. Nungester, University of Michigan, Ann Arbor, Michigan

N. P. Hudson, Ohio State University, Columbus, Ohio L. S. McClung, Indiana University, Bloomington, Indiana

Councilors Elected by Local Branches:

R. H. Vaughn, Berkeley, Calif.--Northern California-Hawaiian
J. F. Kessel, Los Angeles, California-Southern California
Elizabeth F. Genung, Northampton, Massachusetts--Connecticut

M. L. Laing, Chicago, Illinois-Illinois
P. A. Tetrault, West Lafayette, Indiana-Indiana
Morris Scherago, Lexington, Kentucky-Kentucky
John H. Brewer, Baltimore, Maryland-Maryland
W. L. Mallmann, East Lansing, Michigan-Michigan

P. L. Varney, St. Louis, Missouri-Eastern Missouri
C. E. Georgi, Lincoln, Nebraska-Missouri Valley
F. H. Johnson, Princeton, New Jersey-New Jersey
Dorothy Pease, Brooklyn, New York-New York City

C. S. Pederson, Geneva, New York-Central New York
H. W. Lyall, Albany, New York-Eastern New York

W. M. Hale, Iowa City, Iowa-North Central G. L. Stahly, Columbus, Ohio-Ohio

H. E. Morton, Philadelphia, Pa .- Eastern Pennsylvania

MacDonald Fulton, Dallas, Texas-Texas

Sara E. Branham, Bethesda, Maryland--Washington

Invited Members, by Council Action of 1938:

Barnett Cohen, Editor-in-Chief, BACTERIOLOGICAL REVIEWS A. P. Hitchens, Editor, Section C, BIOLOGICAL ABSTRACTS

L. S. McClung, Program Committee Chairman

J. M. Sherman, Editor-in-Chief, JOURNAL OF BACTERIOLOGY

1944 MEMBERSHIP DUES

The office of the Secretary-Treasurer is now located in the Medical School of George Washington University, 1335 H Street, N. W., Washington 5, D. C. There are approximately 125 members who have not yet paid their 1944 dues and, consequently, are not receiving the current issues of the JOURNAL OF BACTERIOLOGY and BACTERIOLOGICAL REVIEWS. Subscriptions to these publications cannot be entered before annual dues are paid. The Secretary-Treasurer will be glad to receive a reply to the letter of reminder that was sent on July 5 to all members in arrears with their dues payments.

NOMINATIONS FOR 1945 OFFICERS

The Nominating Committee, consisting of Dr. J. M. Sherman, Chairman; Dr. O. T. Avery, Dr. R. E. Buchanan, Dr. Rebecca C. Lancefield, and Dr. A. G. Lochhead have nominated the following members for 1944 officers of the Society of American Bacteriologists:

President:	Stuart Mudd	
Vice President:	James Craigie	
(1 to be elected)	G. B. Reed	
Secretary-Treasurer:	L. W. Parr	
Councilors-at-Large:	G. M. Cameron	
(2 to be elected)	W. V. Halversen	
	E. R. Hitchner	
	H. R. Thornton	

Nominated by the Council:

Honorary Member: O. T. Avery

The custom in the past has been to publish a brief account of the career of each candidate for office. This follows below. The ballots for election of 1945 officers will be sent out early in October by first class mail, together with the statements for 1945 dues.

The Council unanimously nominated Dr. O. T. Avery for Honorary Membership at the time of the May meeting. The Society has amongst its honorary members three individuals, namely, Dr. Ludvig Hektoen, Dr. F. G. Novy, and Dr. C.-E. A. Winslow.

In regard to honorary membership the Constitution states, "Eminent investigators, whose contributions to the science of bacteriology entitle them to the highest honor within the power of the Society to confer, shall be eligible for election as honorary members of the Society.

"Candidates for honorary . . . membership shall be nominated upon receiving a

unanimous vote of the Council.

"At least sixty days before the annual meeting the secretary-treasurer shall send a final ballot bearing all nominations for office (whether made by the nominating committee or by petition) to all active members of the Society. He shall also include therewith any nominations submitted by the Council for honorary . . . membership."

Constitution, Article V, Section 4, "Active members of the Society may make additional nominations but such nominations shall be valid only if presented over the signature of ten active members and received by the secretary-treasurer at least 70 days before (election)."

COUNCIL ACTIONS

Council mail votes were sent to the Councilors on June 13, June 23, and August 1, and the following actions were taken: to open a deposit account for, and in the name of, this Society with the Riggs National Bank of Washington, D. C; to approve extending the 1945 annual meeting over a period of four days rather than three days; to approve selection of the Book-Cadillac Hotel, Detroit, Michigan, as headquarters for the 1945 annual meeting; to approve the week beginning May 20, 1945, for the next annual meeting in Detroit, Michigan: to approve moving the deadline date for abstracts from 60 days to 80 days prior to the meeting, for the May, 1945, meeting; to authorize the Secretary-Treasurer to establish a savings account in the name of this Society at the Riggs National Bank, Washington, D. C., in the same amount as was transferred from a similar account in the First National Bank at Madison, Wisconsin; to allot an additional \$300.00 for the Secretary-Treasurer, Secretarial Service account, for the balance of 1944; to approve the appointment of Dr. J. M. Sherman as Chairman of the Publication Board of the Society; to approve sustaining membership in the Society for the Pitman-Moore Company of Indianapolis, Indiana; to approve active membership in the Society for the applicants whose names are included on the list at the end of this News Letter.

NOMINATION FOR MEMBERSHIP BLANKS

Enclosed with this issue of the News Letter is a nomination for membership blank. Anything you can do to increase our membership will be greatly appreciated. Additional forms may be obtained from the Secretary-Treasurer.

FROM THE PROGRAM COMMITTEE CHAIRMAN

"You will note that the Council has approved the dates May 22 through 25 (inclusive), 1945, for the next meeting which will be held in the Book-Cadillac Hotel in Detroit, Michigan. The deadline for the receipt of abstracts (official blanks will be sent to each member in January) and for notices of exhibits will be March 5, 1945. In the extension of the convention to a four-day period it is planned to utilize the extra time more by spreading out the events which have been scheduled in the past in a manner to better avoid conflict rather than to add new features. It seems that only the future convention can provide a satisfactory answer to the question of the wisdom of this change in our usual convention plans.

'The Program Committee and the Officers of the Society are confronted by a number of problems relating to the convention. Last year very few replies were received from the members following a note in the News Letter that suggestions concerning the convention plans would be welcomed. This year you are again urged to send your suggestions to the Committee as an aid in our activities. Some specific problems, for

p

this next and later conventions, about which we would like comments from members of the Society include: (1) Suggestions of topics for round tables, and number of round table discussions to be scheduled, (2) Names of speakers for invited addresses (the Program Committee has been directed by the Council to include this material), (3) The relative proportion of convention time which should be devoted to entertainment features, (4) Advisability of publication of certain of the round table symposia reports in book form as is done by the A.A.A.S., (5) Advisability of publication in full of all papers presented at the convention in a separate volume of Proceedings as is done by the Institute of Food Technologists, (6) Proper program space for material from the Committee on Teaching and other groups, (7) Advisability of trying to schedule alumni or other group breakfasts, luncheons, etc. (8) Preference for month of year for annual meeting (when travel restrictions are no longer to be considered, should we return our meeting to the Christmas period?).

"Any group which desires to hold a meeting during the Detroit convention should inform me as soon as possible."—L. S. McClung, 302 Chemistry Building, Indiana

University, Bloomington, Indiana

LOCAL BRANCH NEWS (Notes from the Secretaries.)

Indiana Branch: "A meeting was held at Indianapolis on May 26. At this meeting Dr. R. F. Ervin, Laboratories of Bacteriology, Notre Dame University, Notre Dame, Indiana, was appointed to fill the unexpired term of Dr. J. L. Roberts. Seventy-three registered for the afternoon meeting, of which number thirty-three were from outside the City of Indianapolis. Nine papers were presented at the meeting, and Dr. P. A. Tetrault reported on the New York meeting of the national organization. A dinner was served in the Y.W.C.A. that evening, and two films arranged for by Dr. L. A. Weed were shown. The program follows:

'Maduramycosis of the foot. Organism identified as Monosporium apiospermum',

C. G. Culbertson, Edith Haynes, and W. V. Woods.

Combined sulfonamide and penicillin therapy in pneumococcic meningitis,

G. F. Kempf, P. L. Kurtz, and R. E. Rice.

'Effects of succinylsulfathiazole on the intestinal flora and nutritional status of rats fed evaporated milk', H. G. Day, K. G. Wakim, W. H. Zimmerman and L. S. McClung.

'Microbiological assay of calcium pantothenate', Preliminary report, Helen M. Ketchum and R. L. Conklin.

'Pleuropneumonia-like organisms as seen by the electron microscope', Lucille J. Weiss.

'Pertussis agglutination by the rapid method', H. M. Powell.

Bacteriological changes accompanying complete intestinal stasis by mechanical obstruction of the anus of the albino rat', Morris Wagner.

'The intestinal flora of white rats maintained on a sterilized diet with sulfaguanidine in the water supply', Preliminary report, John Reback.

Comparison of various media suggested for the cultivation of germ-free Musca domestica from eggs to adult', Bernard Teah.

'Budding yeast cells', a film, Fleischmann Yeast Company.

'Rocky Mountain spotted fever vaccine', a film, U. S. Public Health Service.

"The fall meeting will be held jointly with the Indiana Academy of Science in Indianapolis. The tentative date for this meeting is October 27. Dr. Lyle A. Weed, Indiana School of Medicine, Indianapolis, is the program chairman for both the Branch and the Academy."—P. A. Tetrault

New Jersey Branch: The Theobald Smith Society met in Princeton, Saturday afternoon, June 10, at the Biological Laboratory of Princeton University. The following papers were presented:

'The methyl red reaction in aerogenes fermentations', Orville Wyss.

خاطوه المستورد والمعالم المعالم المستورة المستورد المستور

chald not receive the court of the control of the c

The last coeffee will in Sold July with the College Acedery of Science In "Alegandin. The tentative Lett for this courter is Colored by Device Alice

'Penicillin production by various fungi', J. W. Foster and E. O. Karow.

'The action of quinine on dehydrogenase systems of B. coli', Isaac Lewin and F. H. Johnson.

Electron micrography of B. cereus, and tyrothricin action', F. H. Johnson.

"Following the meeting a light supper was served to the members and guests. The Kefir served at the supper was made available through the kindness of Mr. Grundfest, who provided a supply of the fermentation 'grains' which he had obtained directly from the Caucasus. " -- F. H. Johnson

Central New York Branch: "The 47th semi-annual meeting of the Branch was held on July 1 in Geneva, New York, with 40 members in attendance. A luncheon was served at the Seneca Hotel.

"The program consisted of 11 original contributions and a review of the contri-

butions of Dr. H. W. Conn to the field of microbiology by H. J. Conn.

"The following officers were elected: Chairman, J. M. Sherman; Vice Chairman, H. N. Jones; Secretary-Treasurer, I. C. Gunsalus; Councilor, C. S. Pederson.

The carbon dioxide requirement of the meningococcus, H. W. Scherp and Dorothy M. Tuttle.

'Effect of a bacteriophage on the dehydrogenase activities on a strain of E. coli', H. W. Scherp, S. F. Coffin, and J. F. Waldo.

'A report on the marine bacteria of the West coast', C. E. ZoBell and H. C. Upham.

'The effects of penicillin, clavacin, and streptomycin on tetanus toxin', Erwin Neter and Dessie Will.

'The effects of penicillin on staphylococcus bacteriophage', Erwin Neter and Phyllis Clark.

Butylene glycol production by the so-called Ford strain of Bacillus subtilis', I. C. Gunsalus.

'Observations on the life cycle of Leishmania tropica, in vitro', E. P. Offutt.

'Microbic dissociation and the species concept', Otto Rahn.

'The food poisoning micrococci', W. C. Haynes and G. J. Hucker.

'Occurrence of enterococci in milk', J. C. White and J. M. Sherman.

'Slime-producing coliform and coliform-like bacteria', J. R. Sanborn.

'Professor H. W. Conn of Wesleyan University and his work', H. J. Conn. "-I. C. Gunsalus

Texas Branch: The 1944 Spring meeting of the Branch was held on Saturday, May 20, in the Biology Building of the University of Texas, Austin, with 150 persons attending, thirty of whom were officers located in Army camps in Texas.

"In addition to the seventeen papers presented during the day, the program included a business meeting, an executive committee meeting, a barbecue, and the

showing of the film on 'The Growth of Bacteria, Yeasts, and Molds'.
"At the business meeting, presided over by Dr. S. W. Bohls, a report of the National meeting was made by the Texas Branch Councilor, Dr. MacDonald Fulton.

"The group voted to hold the 1944 Fall meeting in Houston with Baylor University Medical School as the host.

"The following officers were elected for the coming year: Dr. O. B. Williams, President: Dr. MacDonald Fulton, Vice President: Dr. Gordon Worley, Jr., Secretary; Mrs. E. B. M. Cook, Treasurer.

"The following papers were presented at the meeting:

'Disparity in appearance of true Hansen's bacilli and cultured 'Leprosy Bacilli' when stained with Sudan black B fat stain', K. L. Burdon.

'Cytological and bacteriological findings in allergic patients', Hazel Scott Marcuse and H. E. Prince.

'Cellulose digesting bacteria in Amitermes species', R. E. Hungate.

'The incidence of the Rh and Hr antigens in human erythrocytes', Sol Haberman and J. M. Hill.

BOOK REVIEW

LABORATORY METHODS OF THE UNITED STATES ARMY. J. S. Simmons and C. J. Gentzkow. Lea and Febiger, Philadelphia (1944) Fifth Edition. 823 pages. \$7.50

"This considerably enlarged edition of what constitutes in effect a standard manual for use in the medical and sanitary laboratories of the United States Army covers a large variety of subjects and lists an imposing array of twenty-five contributors, of which twenty are officers in the Army. Included in the volume are sections on clinical pathology, chemistry, mycology, bacteriology, rickettsia and filterable viruses, protozoology, helminthology, entomology, pathology, special veterinary laboratory methods and statistical methods. The illustrations include 103 engravings and eight color plates, two of the latter showing blood cells and the remaining six the malarial parasites and their appearance in blood.

"Directions for the various laboratory procedures are, for the most part, succinct but complete. Because of the scope of the book it apparently has been necessary to condense some parts more than would otherwise be desirable, and the interpretation of results of some of the tests has not been discussed fully. It is surprising that there are no Army methods given for the examination of eating utensils and dishwashing facilities.

"The manual, besides being invaluable to workers in the service laboratories, should prove a useful addition to the libraries of medical and hygienic laboratories."—W. C. Frazier

NEWS ABOUT OUR MEMBERS

Dr. O. I. Avery was elected a foreign member of the Royal Society, London.

Dr. Franklin W. Barber, of the University of Wisconsin, recently accepted a position with the Golden State Company, Ltd., San Francisco, California.

Dr. James W. Bartholomew received his degree at the University of Wisconsin and and is now located in the Department of Bacteriology of the University of Southern California at Los Angeles.

Dr. Leland D. Bushnell was elected President of the Kansas Academy of Sciences

and will preside at the meeting next year.

Dr. Joseph P. Cleary of the Bureau of Public Health, Portland, Oregon, is serving as Lieutenant at Tilton General Hospital, Fort Dix, New Jersey.

DESERVEN NUO TIDEA SWATE

Dr. C. C. Avery was elected a factor of the larged Society, London.

Dr. Frenklin W. Barber, of the University of Viscopole, research a position with the Golden Scate Corpuly. Ltd., San Frencisco, California. Dr. James W. Barthelloow required his degree at the University of Research and and to now breaked to the Department of Besterialogy of the University of Scatners

serving as inquiental at Tilton General Horston, Fort Dis. New Corres.

Dr. Herald R. Cox, formerly at the Rocky Mountain Laboratory, Hamilton, Montana, has become Associate Director of Research, Chief Division of Virus and Rickettsial Diseases, Lederle Laboratories, Inc., Pearl River, New York.

Dr. René J. Dubos, George Fabyan Professor of comparative pathology and Professor of tropical medicine at the Harvard Medical School, has been elected a member of the Rockefeller Institute for Medical Research, New York, New York.

Dr. Fred W. Gallagher, of St. Souis University, has accepted a position as Assistant Professor of Bacteriology in the Department of Bacteriology and Clinical Pathology, College of Medicine, University of Vermont, Burlington, Vermont.

Dr. Walther F. Goebel was promoted from associate member to member of the

Rockefeller Institute for Medical Research.

<u>Dr. Ivan C. Hall</u> has been appointed Professor and Chairman of the Department of Bacteriology at New York Medical College, Flower and Fifth Avenue Hospitals, succeeding <u>Dr. Laura Florence</u> who will retire in September.

Dr. Austin M. Hanson recently became associated with the Western Condensing

Company, Appleton, Wisconsin, as Senior Bacteriologist.

Dr. C. Paul Hegarty has left Georgetown Medical School to accept a position in the Medical Research Division of Sharp and Dohme, Inc., Glenolden, Pennsylvania.

Dr. A. P. Hitchens has been appointed Health Commissioner of Wilmington, Delaware.

Dr. Marion Hotopp is now located in Dallas, Texas, at the United States Children's Bureau.

Mr. John F. Kennedy has changed positions and is now at Pitman-Moore Company, Indianapolis, Indiana. He had been at the American Cyanamid Company, Stamford, Conn.

Dr. Colin M. MacLeod and Dr. Charles E. Smith are 2 of 19 Civilian Medical Consultants of the Army Medical Department appointed by the War Department to advise on problems of internal medicine in the special field of infectious diseases.

Mrs. M. Katherine Gurley Neumeier is at present Bacteriologist in the State

Laboratory of the Public Health Department at Berkeley, California.

Dr. Truman Squire Potter, of the University of Chicago, is now located in Dartmouth Medical School, Hanover, New Hampshire.

Miss Elizabeth D. Robinton, formerly at Goucher College, Baltimore, Maryland, is

Instructor in Bacteriology at Smith College, Northampton, Massachusetts.

The Scanlon-Morris Company and the Scanlon Laboratories became a part of the Ohio Chemical and Manufacturing Company, a subsidiary of Air Reduction Company, Inc., of New York.

Miss Mildred D. Southwick is now located in the Department of Botany of the University of Wisconsin, Madison. She left Vassar College, Poughkeepsie, New York.

Dr. Edward A. Steinhaus has left Rocky Mountain Laboratory, Hamilton, Montana, and accepted a position in the Department of Bacteriology, University of California, Berkeley, California.

Dr. Morris A. Stewart is leaving the University of California at Berkeley to spend three months in Bolivia. His report on parasitic diseases and means for their control will be used by the Bolivian Government in its program for the economic development of the Country.

Dr. Sarah E. Stewart has accepted a position as Instructor in the Department of Bacteriology of Georgetown University Medical School, Washington, D. C. She was

previously at the National Institute of Health, Washington, D. C.

Dr. Lyon P. Stream is transferring to New York leaving his position as Director of Bacteriology of Ayerst, McKenna and Harrison, Ltd., Canada, and assuming the position of Scientific Director of that Company with offices at 22 East 40 Street, New York City.

Dr. C. H. Werkman, Professor in Charge of Bacteriology at Iowa State College was granted the degree of Doctor of Science by Purdue University at the Commence-

ment Exercises held June 25, 1944.

Miss Cecilia M. Tracy has accepted a position as Associate Bacteriologist with the Florida State Board of Health, Department of Laboratories, Jacksonville.

S. Verjagen, Professor to Guyee of Jourszielery at loss State College was granted the degrae of Costor of Science by Parties University at the Community Mina Sentita N. Tracy has accepted a position as Associate Backertologick with

Dr. Paul C. Trussell has left the Dominion Experimental Station, Summerland, to accept a position with Ayerst, McKenna and Harrison, Ltd., Montreal, Canada.

Colonel Thomas B. Turner recently returned from an extensive tour of the European and Mediterranean theaters of operations where he made a study of public health conditions.

<u>Dr. Dennis W. Watson</u>, formerly at Connaught Laboratories, University of Toronto, Canada, has been commissioned Second Lieutenant in the Army of the United States.

Mr. Ralph B. Williams, formerly at the Wyoming Public Health Laboratory, has accepted the position of Director of the Territorial Division of Public Health Laboratories, Juneau, Alaska.

Mr. Roger D. Williams, of the American Cyanamid Company, Stamford, Connecticut, has transferred to the Penicillin Department of Lederle Laboratories, Pearl River,

John Wyeth and Company has been changed to Wyeth Incorporated and is now the ethical marketing company for American Home Products.

IN MEMORIAM

Adele Emma Sheplar 1884 - 1944

"Adele Emma Sheplar, M.D., Assistant Professor of Bacteriology at the New York Post Graduate Medical School and Associate Attending Bacteriologist to the New York Post Graduate Hospital, died there February 10, 1944, after a brief illness.

"Dr. Sheplar was born in Baden, Pennsylvania, January 28, 1884. She was graduated from Women's Medical College of Pennsylvania at Philadelphia in 1909 with an M.D. degree, and began to specialize in laboratory sciences in Vienna, Austria, later going to Shanghai, China, where she worked for four years at St. Elizabeth's Hospital. In 1917 Dr. Sheplar became affiliated with the New York post Graduate Medical School and Hospital as an Instructor, and since 1922 was Assistant Professor of Bacteriology. In recent years she devoted most of her time to diagnostic work at the Post Graduate Hospital laboratory. She was one of the first to point out the importance of incompatibility within the blood groups and she recorded in 1922 examples of such peculiar incompatibility, one of which was related to pregnancy. (Proceedings of the New York Pathological Society, 1922, New Series Vol. XXII, pp. 74 - 76.)

"Doctor Sheplar is survived by three sisters, Mrs. Sarah Miller and Miss Ethel Sheplar of Pittsburg and Miss Mabel Sheplar of Detroit."—Gladys L. Morton

MISCELLANEOUS ITEMS

American Chemical Society. The 108th meeting of the American Chemical Society will be held in New York City from September 11 to 15. The meeting will be devoted to wartime research, problems of the chemical industry, and post war activities of the profession.

Medical Division. Officers of the Division on Medical Bacteriology, Immunology and Comparative Pathology of the Society of American Bacteriologists were elected as follows: Dr. John G. Kidd, Chairman, and Dr. Eleanor A. Bliss, Vice Chairman.

Committee on Materials for Visual Instruction in Microbiology. The following motion picture films have been reviewed under the auspices of the Committee since the last News Letter. Abstracts may be obtained from the Chairman, Dr. Harry E. Morton, University of Pennsylvania, School of Medicine, Philadelphia 4, Pennsylvania, at the rate of 3 cents each (minimum order 10 cents). A complete list of the titles of the films reviewed to date will be sent upon request.

Theobald Smith Medallions For Sale. There are about 35 medallions remaining in the office of the Secretary-Treasurer. These medals may be obtained for \$2.00 each. They are made of bronze bearing the likeness of Theobald Smith. The medal weighs $5\frac{1}{2}$ ounces, is $\frac{1}{4}$ inch thick, and 2 inches square.

The following film strip with sound has been reviewed: FS 1 In your hands.

(Public health). 125 frames. Sound on 16 inch record, both sides.

A chart on Mycotic Infections by Dr. Morris Moore is available from the Chairman at 10 cents per copy, $7\frac{1}{2}$ cents per copy in lots of 100 or more. The chart is 11 x 16 inches, punched with 3 holes to fit into $8\frac{1}{2}$ x 11 inch note-book by folding once. It lists 20 of the commoner medical mycoses taxonomically and thus has an additional advantage by supplying a classification of the diseases produced by fungi. Tabulated with each disease, clinical and laboratory data are supplied as follows: clinical features, anatomical location of lesions, name of causative fungus, origin of the fungus, and its appearance in tissue.

The Committee has received from Dr. M. W. Jennison 18 negatives illustrating the atomization of droplets during coughing, sneezing, and talking. Lantern slides and

prints are available from the negatives, with legends.

LS- 1. Method of taking a still picture of a sneeze or cough.

LS- 2. The beginning of a sneeze.

LS_ 4. A violent, unstifled sneeze, not quite completed. LS_ 4. A violent, unstifled sneeze, not quite completed.

LS- 5. A violent, unstifled sneeze, completed. LS- 6. A sneeze by a person with a head cold.

LS- 7. A high velocity stifled sneeze. LS- 8. Late stage of a stifled sneeze.

LS- 9. A sneeze stifled with the bare hand.

LS-10. A sneeze stifled with a handkerchief. LS-11. Droplets sprayed into the air from a cough.

LS-12. Enunciating the letter F.

LS_13, 14, 15, 16. Sneezes through masks of various constructions, of the type worn by some surgeons.

LS-17. Sneezing onto a culture dish.

LS_18. Colonies of bacteria on a culture plate inoculated with sneeze droplets. Dr. S. A. Waksman has given to the Committee two pictures illustrating the

action of antibacterial agents. Lantern slides or prints are available. They are:
LS-19. The cup method for testing the antibacterial effect of streptomycin.

LS-20. Plate dilution method for testing the effect of an antibiotic upon different test microorganisms.
